

## BRIDGE THE GAP ON FINANCIAL PROCESSES WITHOUT ADDED COSTS

Unify batch processes across your financial institution  
to achieve service efficiency

BMC® CONTROL-M® 6.3 is the only enterprise scheduling solution that combines agent-based and agentless technology. With no additional installation, maintenance or upgrade procedures necessary, you get the robust functional advantages of an agent-based solution without expensive install costs.

**With BMC CONTROL-M 6.3 you can:**

- > Eliminate the need to install and maintain remote agents by 80 percent
- > Deploy jobs over firewalls and VPNs
- > Expand the reach of process automation to desktops and servers without any installs
- > Automate Web applications, Java-based systems, and message queues
- > Provide business-integrated forecasting of batch related SLAs

**Bridge the gap on financial processes**

See how the industry-leading enterprise job scheduling solution can help you automate and unify your batch processes to improve service efficiency. Find out how in the Webinar *Agentless Workload Automation for Banking and Finance* at [www.bmc.com/agentless](http://www.bmc.com/agentless) on Thursday May 3, 2007, at 1 p.m. CDT.

## JOB SCHEDULING SOLUTION CLOSES THE GAP ON LEAN RETAILING

BMC CONTROL-M 6.3 uses a robust, cost-effective, agentless and agent-based technology to achieve lean retailing

BMC® CONTROL-M® 6.3 is the *only* enterprise scheduling solution that combines agent-based and agentless technology. This solution combines the robust, comprehensive functionality of a unified scheduling and monitoring platform and the flexibility, simplicity, and cost savings of an agentless approach, allowing you to:

- > Manage retail supply changes, product deliveries, and costs
- > Increase margin per store and reduce installation overhead
- > Automate processes over firewalls and VPNs
- > Expand the reach of process automation to desktops and servers without any installs
- > Automate Web applications, Java-based systems, and message queues
- > Provide business-integrated forecasting of batch related SLAs

**You can have lean retailing without the high-end costs**

See how the industry-leading enterprise job scheduling solution can help you make lean retailing a reality. Find out how in the Webinar *Closing the Gap on Lean Retailing* at [www.bmc.com/agentless](http://www.bmc.com/agentless) on Wednesday May 2, 2007, at 1 p.m. CDT.
